

'SafeBet Hidden Fencing' keeps pets in the yard

These days people don't need a wooden or metal fence to keep their pet out of the pound. In fact the best way to ensure the family dog doesn't become the neighborhood stray can't be seen at all.

"The idea when we set this business up was to offer a high quality product at a reasonable price. Something everybody can afford," said Randy Badour, owner of SafeBet Hidden Fencing of Michigan LLC. "With some of the other companies out there, you call them up, have them come out and they give you a price that is usually very, very expensive. We wanted to offer something that everybody could do."

What Randy's business offers is a safe, economical alternative to chain link fencing. His product, Hidden Fence, is 99.2 percent effective at training a dog to respect the boundaries of a yard. Not to mention Hidden Fence can save pet owners \$1,000's compared to wood or metal fence installation.

There's no guarantees that a chain link fence will work either. Dogs can climb over them or dig under them or someone will make the mistake of leaving the gate open. I've had plenty of calls to go put in an electric fence inside their fence."

With Hidden Fence, the dog is fit with a collar which emits a warning sound when the animal wanders too close to the boundaries specified at installation. If the animal continues towards the boundaries the collar delivers a mild corrective stimulation.

"Depending on the dog, you are talking about two to four weeks for training. Once they hear that warning tone that is all it takes," said Badour, who uses Hidden Fence to keep his dog, Kramer, from terrorizing the

neighbors.
